UT05. VERSION CONTROL SYSTEM

OBJECTIVES

In this unit we are going to remember what a version control system is and its basic commands. We will also learn how to work with GitLab.

CONTENT

The content of this unit is:

1. Introduction
2. Repositories
3. Commit the changes
4. Remote repositories
5. Branches

ACTIVITIES

This Unit has two activities:

- Activity 1: Git Online Tutorial by Katacoda

- Activity 2: Gitlab Tutorial

They do not compute for the final grade.
